This certified pre-owned sports car represents the final production year of a legendary model line, blending traditional

British performance with modern engineering. Finished in classic British Racing Green Metallic, this exceptionally low-mileage grand tourer delivers an exclusive driving experience, showcasing timeless proportions with a long hood, muscular rear haunches, and a commanding road presence that honors its heritage.

Performance

At the heart of this machine is a ferocious supercharged five-point-zero-liter V8 engine producing staggering horsepower. Paired with a quick-shifting eight-speed automatic transmission and an advanced all-wheel-drive system, it launches with absolute authority, rocketing from zero to sixty miles per hour in just three-and-a-half seconds. The mechanical limited-slip differential and adaptive dynamics continuously adjust suspension dampers to maximize cornering grip, while the active sports exhaust unleashes an intoxicating growl through quad tailpipes.

Design

The exterior design captures pure automotive artistry with a sleek, low-slung profile and aluminum body panels. Sweeping LED headlights frame a bold black gloss grille, while the dramatic rear features knife-edge taillights and an electronically deployable spoiler that rises automatically for stability. Striking twenty-inch gloss black alloy wheels housing red brake calipers complement the rich metallic green paint, balancing racing style with sophisticated elegance.

Technology

Step inside a driver-centric cockpit equipped with a high-definition interactive driver display and central monitors. The premium infotainment platform integrates seamlessly with smartphone applications and navigation updates. Audiophiles will appreciate the high-end Meridian surround sound system, delivering crisp, immersive acoustics through strategically placed speakers.

Advanced Safety Features

A comprehensive suite of modern driver-assistance features ensures peace of mind. Standard safety technologies include forward-collision warning with automated emergency braking, lane-keeping assist, and blind-spot monitoring. Front and rear parking sensors, a rearview camera, and a driver condition monitor work in tandem to keep you aware of your surroundings.

Convenience and Comfort

The cabin offers a luxurious environment featuring premium leather performance seats that are both heated and cooled. Drivers are treated to a heated steering wheel, ambient lighting, and a refined suede headlining. Rain-sensing wipers, remote engine start, and dual-zone climate control ensure that every tour is relaxing and thrilling.
